1. COMPREHENSIVE HOMEOPATHICS

Complex Homeopathy utilizes the power of super classes of homeopathic ingredients and drives the remedies to where they are most needed in the body. This powerful new homeopathic concept was developed by famed medical doctor and homeopathic physician, Bruce H. Shelton, MD, MD(H), DiHom, FBIH.

Dr. Shelton designed CEREBROMax and SPINALMAX to be used before and during virtually any treatment process to enhance every aspect of integrative medicine. These products prepare the brain and its communication systems to receive each treatment. For example, in chiropractic treatment, certain ingredients prepare the spine, nerves and discs to be more “open” to receive and “hold” chiropractic treatment.

The DETOX and MATRIX remedies help to clear and regulate the interstitial matrix to accelerate the healing process. DETOX I is primarily for liver support and drainage, DETOX II for the kidney, DETOX III for the lymphatics, and MATRIX SUPPORT is for clearing of the mucuous membranes throughout the body and supporting the interstitial matrix. Combined with the work you already provide, they are truly remarkable!

Comprehensive Homeopathy utilizes six primary sources of ingredients to supercharge the affect, allowing the brain to target organs and the matrix to enhance and sustain treatment. Ingredienta below are preceded by colored hexagons denoting its super class of homeopathics as denoted in the Ingredient Color Key →.
